6/21/75

Dear Doug,

Thanks for the pix. For my purposes, until my own are returned - if they are- this are fine.

Do you have the one of that series in which Walthers are others are examining what appears to be the place a bullet may have impacted at the eastern end of that sewer inlet?

That can have some immediate value.

Suit update: next hearing postponed until 7/7.

Eastern students who can be addressed via me or Student Govt Assn Univ Md. College Park, Md. are asking others to write their Congressmen and Senators to ask for an investigation. Cooies to the students who are still organizing helpful.

Thanks and best,
